

Tree Protectors and Grilles

A range of protectors for the effective prevention of tree vandalism and accidental damage in both pedestrian and wildlife locations

Flat Pack Protector

Rainbows flat pack protectors, the most cost effective solution on the market.

Easy to transport and supplied in a carton for transit protection. The flat pack protectors unique curved design offers additional safety. The effective design makes the protector easy to install and is ideal for those large garden and domestic applications.

- Black Polymer Coated For Long Life Protection
- Frost Proof, Will Not Crack
- Easy To Install
- Corrosion Resistant Fixing Bolts Supplied As Standard

Grills Manufactured In Specially Formulated SG Iron

Unique 'Dive In' Feet Locking Sytem

CODE	COLOUR	DIAMETER	HEIGHT
C757	Black	32cm	1.725 meters

Classic Protector

Rainbows classic range designed and manufactured to a high standard.

The classic range is available in standard galvanised or high specification black polymer coated, offering long life protection. The range has a unique 'drive in' feet locking system securing the protector into the ground. Supplied in two halves, the protector is simply bolted together using the supplied corrosion resistant fixing bolts.

On many urban and rural sites, newly planted trees need protection from vandalism, machinery and animals. In many situations wire mesh guards and other protection methods are not sufficient to effectively protect the tree.

Rainbow Professionals Tree Protectors are the ideal solution to protect semi-mature trees from harmful damage. The Protectors offer protection to the most vulnerable area of the tree, the trunk.

The Protectors are made from mild steel and are polymer coated (galvanised finish also available) offering increased protection and durability.

CODE	COLOUR	DIAMETER	HEIGHT
C750	Galvanised	40cm	1.8 meters
C751	Black polymer	40cm	1.8 meters
C752	Galvanised	60cm	1.8 meters
C753	Black polymer	60cm	1.8 meters

Tree Protectors

All protectors are supplied in two parts (except budget) allowing installation to take place after the tree has been planted. Once the tree has reached maturity and the protector is no longer needed to can easily be removed and re-used. Protectors can be used without grills where the ground is soft and no hard surface is present.

STANDARD GRILL	POLYMER COATED	HOLE SIZE	DIMENSIONS	STANDARD FRAME	LOCKABLE FRAME	PROTECTOR CODE
C759	C768	410MM	800 x 800MM	C762	C765	C757
C760	C769	510MM	1000 x 1000MM	C763	C766	C750/751/758
C761	C770	610MM	1200 x 1200MM	C764	C767	C752/C753

Sheep Proof Protector

Rainbows sheep proof protector adding additional protection against grazing sheep.

The extra protection is achieved by the adding an extra ten steel bars on the lower part of the tree protector. These additional bars narrow the gap between the existing uprights and prevent sheep damaging the vulnerable section of the tree.

CODE	COLOUR	DIAMETER	HEIGHT
C758	Black polymer	40cm	1.8 meters

Grills and Frames

Rainbow tree grills protect the complex root system whilst adding character.

Where Tree Protectors are placed in paved or concreted areas. Rainbow's aesthetically pleasing grills prevent compaction to the surrounding soil.

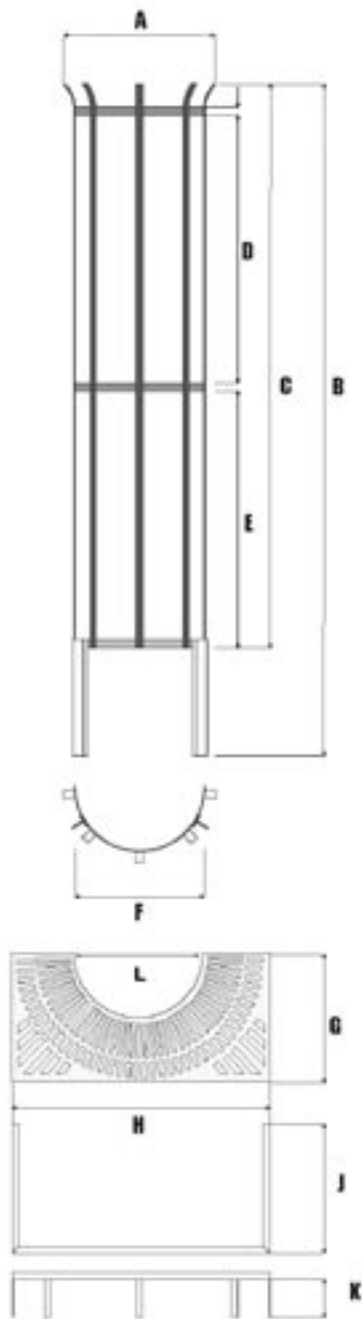

The grills are supplied in four pieces and are manufactured in a specially formulated SG Iron making them effectively shatterproof, unlike most other cast products on the market. Available in three different sizes they are supplied as standard with a black painted finish. **Black polymer coated option now available.**

The Grill frames are manufactured in mild steel and are black polymer coated as standard. Supplied in two pieces, they come fitted with unique 150mm legs enabling the frame and grill to be securely fastened to the ground. The features combined with the 'drive in, foot anchor system' found on the Classic & Sheep Proof protector range, makes for a comprehensively secure system. **New Lockable frames now available.**

These frames replace the standard range and enable the frame, tree protector and grill to be bolted together for extra security.

New Lockable Frames Now Available

These frames replace the standard range and enable the Frame, Tree Protector & Grill to be bolted together for extra security.
